

CERTIFICATE

OF ACHIEVEMENT

THIS CERTIFICATE IS PROUDLY PRESENTED TO

Boda Geetha

For completing Data Science Program with
Business Use-Cases

For Successfully completing various activities like 1. Data Understanding using Python, Statistics & Tableau. 2. Data Cleaning or Preparation using Python 3. Model finalization with the help of various ML Algorithms like Logistic Regression, Linear, Decision Tree, Random Forest e.t.c 4. Validating the model with the right evaluation technique based on the requirement. 5. Handled Text Data to Understand it with the help of Word Cloud and Text Classification with various NLP Pre-Processing & Feature Extraction Techniques like DTM, TFIDF e.t.c 6. Deployed the models with the help of Streamlit for communicating the results. 7. Handled Advanced analytics tasks with the help of Deep Learning algorithms like Feedforward Neural Network and Convolution Neural Network using Tensorflow and Keras.
